Insight

To effectively compete in today's dynamic health care environment, post-acute care providers need a partner who understands the key challenges. Since 1997, Pathway Health has kept a pulse on industry clinical, regulatory, quality and reimbursement trends, in order to guide our clients on the right path to success.

Our regulatory and quality consultation services help organizations mitigate risk, while identifying opportunities for improvement. Assisting providers in their ability to realize financial stability and quality performance in the complex reimbursement environment is our passion.

Expertise

At Pathway Health, we pride ourselves on employing professionals with real-world experience. We engage clinical and operational experts to lead our clients in achieving the next level of quality performance.

It is our people, and their talents, which set Pathway Health apart from other professional services companies in the post-acute care industry. Our reliable, resourceful, respectful and responsible team of experts represents all disciplines along the health care spectrum.

Knowledge

For more than two decades, post-acute care leaders, have partnered with Pathway Health, in order to obtain the right education and training. The skills gained are critical to overall operational success—ultimately leading to improved quality and compliance outcomes.

We work closely with numerous professional associations and innovative service partners to develop industry leading tools and training. You can be certain that Pathway Health has the resources and expertise to meet your needs and help you stay on course.

"Pathway Health provided a top notch assessment. The service, communication and work product were outstanding. The contract was signed on a Friday. They had a team onsite in Hawaii by the following Tuesday. The results speak for themselves. We can't thank them enough."
