## Updated Phase II and III Requirements of Participation

The Centers for Medicare and Medicaid Services (CMS) has released revisions to the State Operations Manual, Chapter 5 and Appendix PP which guide long-term care surveyors in enforcing the Requirements of Participation (RoP). Pathway Health experts are available to assist with the October 24, 2022, RoP preparation including Training and Education options, Mock Survey, Detailed Implementation Guides and Tools, Policy and Procedure templates included in Toolkits and RoP Products, resources, and more!

### Education and Training

Online, Live Virtual and In-Person Training Options

#### Leaders Overview of Updated Requirements of Participation effective October 24, 2022 (1-Hour Session)

Understanding the updated Phase II and III Requirements of Participation guidance effective October 24, 2022, is essential for all nursing home leaders. This session will provide an overview of clarifications and updated guidance outlined in Appendix PP including recommendations for preparation with your team.

#### Three-Part Series: Understanding the Updated Phase II and III Requirements of Participation Guidance (Three 90-Minute Live Sessions)

This enlightening three-part series will outline the new and revised guidance for the Requirements of Participation for skilled nursing facilities. An overview of the RoP changes as well as an in-depth review of infection control changes, abuse prevention and the updated impact of the psychosocial guidance will be included in this series. Learn how to prioritize for these changes and create a win-win strategy for success. Attendees will receive handouts that include resources and tools to assist in implementation of the changes.

#### Interactive Workshop: Facility Preparation for the Updated Requirements of Participation (6-Hour Live Session)

This interactive workshop will walk attendees through the clarifications and updated guidance outlined in Appendix PP (Requirements of Participation) effective October 24, 2022. Participants will have the opportunity to review their current practices and policies, identifying changes necessary to align with the new guidance. Learning how to operationalize the changes is key. Resources and tools will be provided to all attendees to assist in the implementation of the changes. *\*\*Attendees will need to have access to the current facility policies and procedures.*
