Tools that Work for You

Pathway Health is a team of experts who provide consultation, education and assistance to skilled nursing, assisted living, home health and hospice providers. Our philosophy on offering critical products is to provide insight, expertise and knowledge to help you achieve clinical, leadership, quality, regulatory and reimbursement goals.

Lead the Industry

At Pathway Health, we break down the complex issues to ensure your success in delivering quality clinical care and achieving financial stability. Always staying at the forefront of health care trends, we work closely with numerous professional associations and innovative service partners to develop leading manuals, training and tools. Pathway Health's resources help your team stay up-to-date and focused on clinical, regulatory, quality and reimbursement outcomes.

"This toolkit is one the best purchases I have ever made. It took a complex health care initiative and broke it down into usable day-to-day systems. Thank you for saving me time and energy. I highly recommend this to all DONs"

- DON, Wisconsin

Resources Designed by Industry Experts

The post-acute industry is changing. Without the proper support, it can be a challenge for providers to achieve quality outcomes. Pathway Health has an expansive library of resources, products and tools to assist leaders. Navigate your path with the right tools and resources.

Achieve Quality Outcomes

We offer a variety of products, tools and resources in paper form, electronic format, virtual, self-directed and in-person instruction.

Resource Manuals

Focused on a specific clinical or operational system providing your team with policies, procedures, implementation strategies, education resources, forms and quality improvement monitoring tools to assist you in achieving your goals. Our manuals operationalize complex issues faced in our industry today! We offer manuals with the most up to date information on various post-acute care topics

Resource Toolkits

Specifically designed to target new health care initiatives or a specific clinical or operational system. Each Toolkit includes guidelines and processes based on best-practices. Included in our Toolkits are a collection of flexible and adaptable guidelines, checklists, forms, tools, and quality monitoring audits for post-acute care leaders to improve their internal processes to meet the ever-changing health care landscape.

Pathway Learning Network – Self-Directed Learning – Anytime, Anywhere, Any device.
