Insight. Expertise. Knowledge.

Pathway Health offers expert consulting and training services, education programs, and software implementation solutions for the post-acute care continuum. We serve Skilled Nursing, Assisted Living, Memory Care, Group Homes, and Hospital-based post-acute care networks. Pathway can coordinate with PointClickCare, corporate teams, and facility-level teams to assist your organization with achieving full, effective use of your PointClickCare system. In addition to PointClickCare, Pathway provides consulting, training, and education at an expert level around regulatory compliance, payor compliance, billing, clinical reimbursement, clinical standards of practice, infection control, leadership growth, strategic planning, use of Frailty Assessment for Risk Management, and the use of INTERACT® to reduce avoidable re-hospitalizations and improve the quality of care.
