Realize the Full Value of Your PointClickCare® EHR Solution

Pathway Health's dedicated team of ePath professionals is ready to support your goals by reducing implementation costs and optimizing your **PointClickCare® (PCC)** EHR solution.

Our proven best practices assist in the following:

- Effectively using clinical and financial modules
- Completing user-friendly assessments and documentation that promote compliance
- Identifying residents at risk and analyzing gaps in care and services
- Implementing documentation processes, removing redundancies and decreasing the number of “clicks”
- Utilizing tools that address Requirements of Participation (RoP)
- Improving workflows
- Providing better oversight to quickly identify risk
- Achieving maximum reimbursement

Streamline Assessments

Are your assessments slowing your team down? Does your team complain about the number of tasks to complete for an admission? Are care plans being updated immediately following the evaluation? Our knowledgeable experts provide streamlined solutions to incorporate the latest PCC features.

- Reduce the time required to complete the assessment
- User-friendly workflows
- McGeer Criteria for infection identification
- Clinical and Financial GAP Analysis Solutions - System reviews intended to enhance the configuration and effective use of your clinical or financial systems.
- UDA compliance audit with action plan

Pathway Health provides expert implementation, custom assessments, training and ongoing support to help keep your team on the clear path to success.
