Case Mix Snapshot Review and Support

Strengthen Your Case Mix Outcomes. Improve MDS Accuracy

Nursing home providers are facing an increasingly complex environment – shifting payment systems, tighter reimbursement, and heightened scrutiny. Accurate documentation is essential to protect Case Mix reimbursement, reduce discrepancies, and prevent revenue loss.

The Case Mix Snapshot Review

Pathway Health's virtual Case Mix Snapshot Review delivers a high-level analysis of MDS coding and supporting clinical documentation that influences Case Mix outcomes. The review equips leadership with actionable insight into reimbursement opportunities, risk exposure, and targeted improvements to optimize Case Mix performance.

Key Components Include:

- Sample record analysis
- Case Mix data review
- Documentation validation for Case Mix
- Gap and opportunity identification
- Targeted recommendations for improvement and optimization

Worth the Investment

- Virtual snapshot review with a customized approach
- One set price, no travel costs
- Optimization opportunities uncovered often pay for the review itself
- Rapid insights without operational disruption
- Contact us for special pricing

Insight, expertise, and knowledge when it is needed most.
